

Visualization Matching Game

R.No: 4 Reg. No: 192424243 Name: B PALLAVI

Each chart on the left (A-J) matches exactly one description on the right (1-10). Write the matching number next to each letter's block.

A.		1. Shows how a cumulative total changes over time
B.		2. Compares amounts across separate categories
C.		3. Compares distributions across groups and highlights outliers
D.		4. Shows how parts contribute to a whole
E.		5. Shows the relationship between two continuous variables
F.		6. Shows how a value changes over time
G.		7. Shows magnitude across two categories using color intensity
H.		8. Shows the distribution of a single continuous variable
I.		9. Shows part-to-whole composition across categories
J.		10. Shows three variables at once using position and size

- (3) A better color scheme would use different colors for each vehicle type. The colors should be distinct enough to easily identify each category.

Activity

Visualization Matching game

- A) 3 - Compares distributions across groups and highlights outliers.
- B) 7 - Shows magnitude across two categories using color intensity.
- C) 10 - Shows three variables at once using position and size.
- D) 6 - Shows how a value changes over time.
- E) 5 - Shows the relationship between two continuous variables.
- F) 4 - Shows how parts contribute to a whole.
- G) 1 - Shows how a cumulative total changes over time.
- H) 2 - Compares amounts across separate categories.
- I) 8 - Shows the distribution of a single continuous variable.
- J) 9 - Shows part-to-whole composition across categories.
